30.1 Chess League Format

30.1.1. Schools may have up to 4 players playing for points in any given match versus another school

30.1.2. Schools with less than 4 players that want to play for the team championship will use ghost players that will forfeit their matches

30.1.3. The CAA Team Championship seeding will be based on total points accumulated throughout the season by players playing in the weekly matches (maximum of 4 players counting in any given match)

30.1.4. Schools will designate their 4 players for each match. The schools can change their lineups for each match. If a team brings more than 4 players, practice matches that do not officially count towards points will be organized.

30.1.5. Each coach will fill out a separate lineup/ match sheet and turn this into the site supervisor.

30.1.6. If a school has less than 4 players for a match, Boards 1, 2, and 3 must be filled out first in descending order starting on Board 1.

30.1.7. Each school will also be required to bring 2 chess sets and 2 digital clocks to every chess event. Schools will play 2 matches per day.

30.1.11. Any situation that needs an outside decision will be decided by an agreement of the two coaches of the teams involved in the match. If they cannot reach an agreement then they will ask the remaining coaches in attendance to come to a decision.

30.1.12. When players finish a chess match they should raise their hands and ask for a coach to verify the outcome before declaring the outcome. Once the players have a final outcome decidedboth players will go to the scoring supervisor table and report the match result.
